

Achref Ferjani

Network Systems Engineering Student · Cybersecurity Enthusiast

Tunis, Manouba +216 25 708 778 cy1ingachref@gmail.com

SUMMARY

Motivated 2nd-year Network Systems Engineering student with hands-on experience in network design, traffic analysis, and server administration. Skilled in configuring VLANs, DHCP servers, and multi-network topologies using Cisco Packet Tracer and Windows Server. Actively sharpening cybersecurity skills through CTF challenges, pwnable exercises, and platforms like TryHackMe. Passionate about network security and eager to contribute to a real-world cybersecurity team.

EDUCATION

Bachelor in Computer Systems Engineering

2024 – Present

ISSATM — Bizerte

Focus on Cybersecurity and Data/Computer Network Engineering. Relevant coursework: Network Security, Computer Networks, Data Communications, Operating Systems, Data Structures & Algorithms. Lab work includes packet analysis and basic network hardening.

TECHNICAL SKILLS

Wireshark / Packet Analysis

TCP/IP · VLANs · DHCP

Cisco Packet Tracer

Python

C / C++

Java / JavaScript

SQL / PL-SQL

Linux / CLI

Arduino / ESP32

Git

SOFT SKILLS

Problem-solving

Attention to detail

Fast learner

Self-directed

Analytical thinking

Teamwork & communication

HOBBIES & INTERESTS

Chess · Reading · CTF competitions & pwnable challenges · Network home-lab experimentation · Cybersecurity research · Hardware & technology exploration
